That's me!

Hi! My name is Sarah!

I'm 7 years old and I live in California in the USA! I live with my Mom, my Dad, and my Brother Jeff. We have a dog named Jasper and a cat named Ernie and they are a lot of fun!

I like to play outside and color beautiful pictures.

I also really like playing with my brother.

I'm really good at listening and being a good friend.

In fact, my favorite thing to do is make friends!

I was born with a special mind that only 250 other kids in the whole world have!

Isn't that cool?

My mind never rests and is always working hard because I have Jordan's Syndrome.

Right now, I am helping a very smart group of scientists understand and solve Jordan's Syndrome.

Together we will change the world one day.

Sometimes, I can't keep up with my friends, especially when they go super fast, but I really try! I might also have a different way of communicating, but

I have a lot to share if you listen!

My Mom, Dad and Brother say I'm the hardest working person they know!

Because of my special mind, I have to work harder to do things, but I never give up until I reach my goals.

It's my SUPER POWER!!

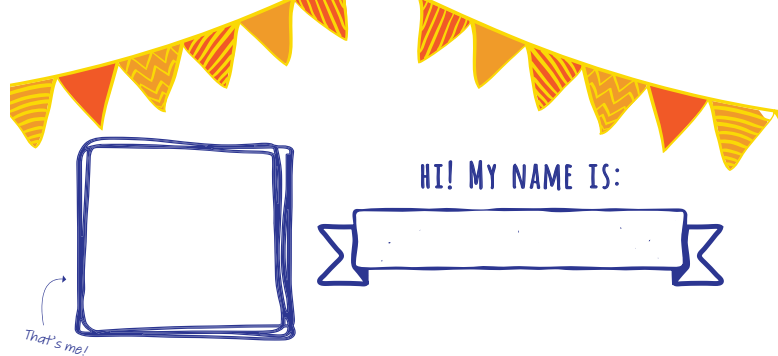

Say hi to me and ask me to play with you!

If you have a question about Jordan's Syndrome, just ask me or ask a grown up! I'm special and you are too, and I can't wait to get to know you and become your friend!

Ask an adult to help you fill out this sheet to let all of your new friends know how special you are!
