THE RITZ - CARLTON

Half Moon Bay, California

September 14th - 16th, 2022

Commented [JJ1]:

We're going to move our JGA Golden State Classic to the coast at the shores of Half Moon Bay. It's the ***Ritz Carlton at Half Moon Bay***. It's a world class resort *and* one of the most spectacular locations in California if not the world.

The Ritz Carlton Half Moon Bay

Perched on the rugged cliffs along the Pacific coastline, The Ritz Carlton Half Moon Bay is a hotel you can easily imagine being somewhere on the East Coast or even on the Scottish bluffs. The resort overlooks the magnificent ocean, golf courses and has access to trails and beaches.

Opened in 2002, this is perhaps the only resort of this size and scale located directly on Northern California's shoreline. The Shingle style architecture of the hotel, which is much more common on the East Coast, comes from trying blend a building into the coast's asymmetrical landscape.

The nautical details you would expect at a hotel set on the water are used very sparingly, which is very appreciated. The rooms are decorated in hues of gray, bright blue, and slate, hinting at coastal accents. There is a natural calm breezing through the rooms that comes from their isolated location. Ground floor rooms offer private fire pits, and the extra deep bathtubs are perfect for a full body soak.

The Wi-Fi is good while you are in the hotel, outside you quickly lose the connection. But hey, isn't it why you are here? To disconnect?

There are three restaurants here. The Conservatory, mimicking a modern beach house, is great for a casual breakfast, lunch, or dinner, while the Ocean Terrace Bar features an oyster bar and grilled specialties. The restaurants host the Global Cuisine Series, welcoming other internationally acclaimed guest chefs on a regular basis.

Sunset and the Piper....

As sunset time, a bagpiper creates a magical experience on the cliffs. This is the moment where you genuinely feel like you could be in Scotland.

The Ritz Carlton Half Moon Bay offers guests many amenities.

Hike or bike the area's trails, and you're sure to spot loons and kingbirds. Take to the sea by kayak, stand-up paddle board or surfboard, and you'll likely meet a resident seal. Quiet evenings revolve around watching sunsets, sipping locally made beer and wine and enjoying fresh-caught seafood at both quaint eateries and fine-dining restaurants.

Side Trips, Excursions

The concierge will be more than happy to organize everything for you - from Bike rides along the shore, horseback riding, Whale watching excursions to kayaking and more

Just a short two-hour drive from Sacramento, it's perfect place for clean air and to clear your mind after the long grind of session.
