

FAMILY CONFERENCE

JULY 2022

DEAR POTENTIAL PARTNER,

Now is your chance to join us on our journey to find a treatment or a cure for Jordan's Syndrome and help unlock some of the world's greatest medical mysteries. Next July 15th – 17th, our global community of families and researchers will gather in New York City for our third family conference – a critically important step before clinical trials can begin. Please consider supporting our cause by becoming a conference sponsor today.

Jordan's Syndrome is an extremely rare genetic mutation on the genes PPP2R5D, PPP2R1A and PPP2R5C. It causes global developmental delays, low muscle tone, behavioral challenges, seizures, and other medical challenges. Right now, there are more than 200 people, mostly children, diagnosed with Jordan's Syndrome around the world. However, it's believed there may be some 200,000 more people who remain undiagnosed.

Researchers also believe Jordan's Syndrome is linked to autism, Alzheimer's, epilepsy, and even cancer.

100% of all funds raised during this event will directly support clinical research for a potential treatment or a cure for Jordan's Syndrome and may bring breakthroughs for other medical conditions impacting millions of people. Our medical partners from research institutions across the United States and the world are collaborating a way the science world has never seen, making progress at an unprecedented pace.

We need your help to reach the finish line. Please see below for opportunities to contribute to our cause and showcase your organization on an international stage. With your support, we will change the world and improve the lives of children and their families across the globe.

If you have any questions or concerns, please contact us at info@jordansguardianangels.org.

Thank you for your consideration. We can't do this without you!

—THE JORDAN'S GUARDIAN ANGELS TEAM
