

Welcome New Families!

We are so glad you are here. Now breathe. You are not alone. You have a new global community here at Jordan's Guardian Angels to support you every step of the way. Right now, research is underway to find a treatment or a cure for Jordan's Syndrome and a solution is closer than ever. In the meantime, when you're ready, here are some easy steps to get you connected to JGA. Never hesitate to reach out, our team is here for you.

Get Connected

1. Connect with your regional ambassadors:

Regional ambassadors live near you, speak your language and will help you on your journey. Email: connect@jordansguardianangels.org or call (601) 589-0533.

2. Join our Facebook Community:

Search "PPP Families (PPP2R5D, PPP2R1A, PPP2R5C)"

3. Follow us on social media

Get Informed

1. Listen to our podcast 'A Rare Reality':

Specifically Season 1/ Episode 8 our new families episode.

2. Read:

Your welcome letter and new family packet

3. Visit our website:

jordansguardianangels.org

Take a look at the JGA Resource Center which includes our Standard of Care information, New Family Packet, Living with Jordan's Syndrome infographic, and much more.

Get Involved

(When you're ready...no rush!)

1. Join the JGA Families Directory: tinyurl.com/7b7a9kms

In order to organize our family information we have created a database. We use your personal information, email, phone numbers etc. to make sure we know who you are and your official diagnosis, but also to keep you in the loop with weekly newsletters and other correspondence. All of your information will ALWAYS be kept private.

2. Sign up for the research: Simply visit www.simonsearchlight.org

3. Send your EEG or MRI data to Seattle Children's Hospital:

Email to brainresearch@seattlechildrens.org

4. Be a Guest on Our Podcast:

We would love to have you tell your story! Email Christina Janes (Director of Outreach & Awareness) at cjanes@jordansguardianangels.org

5. Join Our Special Projects Committee:

Help us to move our mission forward by taking part high priority projects benefitting our community, help us to problem solve and propose/implement solutions.
